David Bowie Is... 2013-04-16 Victoria Broackes David Bowie's career as a pioneering artist spanned nearly 50 years and brought him international acclaim. He continues to be cited as a major influence on contemporary artists and designers working across the creative arts. This book, published to accompany the blockbuster international exhibition launched at London's Victoria and Albert Museum, is the only volume that grants access to Bowie's personal archive of performance costumes, ephemera, and original design artwork by the artist, bringing it together to present a completely new perspective on his creative work and collaborations. The book traces his career from its beginnings in London, through the breakthroughs of Space Oddity and The Rise and Fall of Ziggy Stardust and the Spiders from Mars, and on to his enormous impact on 20th-century avant-garde music and art. Essays by V&A curators on Bowie's London, image, and influence on the fashion world are complemented by Howard Goodall on musicology; Camille Paglia on gender and decadence, and Jon Savage on Bowie's relationship with William Burroughs and his fans. The more than 300 color illustrations include personal and performance photographs, album covers, costumes, original lyric sheets, and much more. Praise for David Bowie Is "Perusing David Bowie Is (V&A Publishing, distributed by Abrams), the exhibition's catalog, with its procession of poses and costumes and weighty essays tracking the cross-references to pop culture and high art, you get a sense of how much hard work it took to be Mr. Bowie." --The New York Times "The fans of 50 years or those making discoveries in retrospect will be intrigued by the accompanying book David Bowie Is that is far more than a fanzine."--The New York Times "Lends context and picks away at Bowie with such insight that it's a rare hagiography with soul." --Chicago Tribune "Combining top-notch articles on the singer/actor's life and work with official images and reproductions of his fashion and associated ephemera, the hefty, mango-colored book is nothing short of a treasure trove of all things Bowie; a one-stop smorgasbord for the eyes whose pictorials chronicle the groundbreaking star from Ziggy Stardust to Thin White Duke to Heathen and every personality in between." --Examiner.com

The Age of Uncertainty 2022-09-08 TOBIAS. HURTER The epic, page-turning history of how a group of physicists toppled the Newtonian universe in the early decades of the twentieth century. Marie Curie, Max Planck, Niels Bohr, Werner Heisenberg, Ernst Schrödinger, and Albert Einstein didn't only revolutionise physics; they redefined our world and the reality we live in. In The Age of
Uncertainty, Tobias Hurter brings to life the golden age of physics and its dazzling, flawed, and unforgettable heroes and heroines. The work of the twentieth century's most important physicists produced scientific breakthroughs that led to an entirely new view of physics -- and a view of the universe that is still not fully understood today, even as evidence for its accuracy is all around us. The men and women who made these discoveries were intellectual adventurers, renegades, dandies, and nerds, some bound together by deep friendship; others, by bitter enmity. But the age of relativity theory and quantum mechanics was also the age of wars and revolutions. The discovery of radioactivity transformed science, but also led to the horrors of Hiroshima and Nagasaki. Throughout The Age of Uncertainty, Hurter reminds us about the entanglement of science and world events, for we cannot observe the world without changing it.

The Women Are Up to Something 2021 Benjamin J. Bruxvoort Lipscomb Résumé éditeur : This book tells two intertwined stories, centered on twentieth-century moral philosophers Elizabeth Anscombe, Mary Midgley, Philippa Foot, and Iris Murdoch. The first is the story of four friends who came up to Oxford together just before WWII. It is the story of their lives, loves, and intellectual preoccupations; it is a story about women trying to find a place in a man's world of academic philosophy. The second story is about these friends' shared philosophical project and their unintentional creation of a school of thought that challenged the dominant way of doing ethics. That dominant school of thought envisioned the world as empty, value-free matter, on which humans impose meaning. This outlook treated statements such as “this is good” as mere expressions of feeling or preference, reflecting no objective standards. It emphasized human freedom and demanded an unflinching recognition of the value-free world. The four friends diagnosed this moral philosophy as an impoverishing intellectual fad. This style of thought, they believed, obscured the realities of human nature and left people without the resources to make difficult moral choices or to confront evil. As an alternative, the women proposed a naturalistic ethics, reviving a line of thought running through Plato, Aristotle, and Aquinas, and enriched by modern biologists like Jane Goodall and Charles Darwin. The women proposed that there are, in fact, moral truths, based in facts about the distinctive nature of the human animal and what that animal needs to thrive."

Boron Separation Processes 2015-01-19

Nalan Kabay The impending crisis posed by water stress and poor sanitation represents one of greatest human challenges for the 21st century, and membrane technology has emerged as a serious contender to confront the crisis. Yet, whilst there are countless texts on wastewater treatment and on membrane technologies, none address the boron problem and separation processes for boron elimination. Boron Separation Processes fills this gap and provides a unique and single source that highlights the growing and competitive importance of these processes. For the first time, the reader is able to see in one reference work the state-of-the-art research in this rapidly growing field. The book focuses on four main areas: Effect of boron on humans and plants Separation of boron by ion exchange and adsorption processes Separation of boron by membrane processes Simulation and optimization studies for boron separation Provides in one source a state-of-the-art overview of this compelling area. Reviews the environmental impact of boron before introducing emerging boron separation processes Includes simulation and optimization studies for boron separation processes Describes boron separation processes applicable to specific sources, such as seawater, geothermal water and wastewater

Review of the Research Program of the Partnership for a New Generation of Vehicles 2000-07-27 Transportation Research Board Review of the Research Program of the Partnership for a New Generation of Vehicles reviews the Partnership for a New Generation of Vehicles (PNGV). The PNGV program is a cooperative research and development (R&D) program between the federal government and the United States Council for Automotive Research (USCAR). A major objective of the PNGV program is to develop technologies for a new generation of vehicles with fuel economies up to three times (80 miles per gallon [mpg]) those of comparable 1994 family sedans. At the same time, these vehicles must be comparable in terms of performance, size, utility, and cost of ownership and operation and must meet or exceed federal safety and emissions requirements. The intent of the PNGV program is to develop concept vehicles by 2000 and production prototype vehicles by 2004. This report examines the overall adequacy and balance of the PNGV research program to meet the program goals and requirements (i.e., technical objectives, schedules, and rates of progress). The report also discusses ongoing research on fuels, propulsion engines, and emission controls to meet emission requirements and reviews the USCAR partners' progress on PNGV concept vehicles for 2000.

Palace of Palms 2020-07-09 Kate Teltscher 'A glorious green adventure story.' Ann Treneman, The Times 'Books of the Year' 'The most enthralling historical book I’ve read this year.' Claire Tomalin, New Statesman 'Books of the year' Daringly innovative when it opened in 1848, the Palm House in Kew Gardens remains one of the most beautiful glass buildings in the world today. Seemingly weightless, vast and yet light, the Palm House floats free from architectural convention, at once monumental and ethereal. From a distance, the crowns of the palms within are silhouetted in the central dome; close to, banana leaves thrust themselves against the glass. To enter it is to enter a tropical fantasy. The body is assaulted by heat, light and the smell of damp vegetation. In Palace of Palms, Kate Teltscher tells the extraordinary story of its creation and of the Victorians’ obsession with the palms that filled it. It is a story of breathtaking ambition, of scientific discovery and, crucially, of the remarkable men whose vision it was. The Palm House was commissioned by the charismatic first Director of Kew, Sir William Hooker, designed by the audacious Irish engineer, Richard Turner, and managed by Kew’s forthright curator, John Smith, who battled with boilers and floods to ensure the survival of the rare and wondrous plants it housed.

New Frontiers 2000-06-10 Robert Bickers In the new world order mapped out by Japanese and Western imperialism in East Asia after the mid-nineteenth century opium wars, communities of merchants and settlers took root in China and Korea. New identities were constructed, new
modes of collaboration formed and new boundaries between the indigenous and foreign communities were literally and figuratively established. Newly available in paperback, this pioneering and comparative study of Western and Japanese imperialism examines European, American and Japanese communities in China and Korea, and challenges received notions of agency and collaboration by also looking at the roles in China of British and Japanese colonial subjects from Korea, Taiwan and India, and at Chinese Christians and White Russian refugees. This volume will be of interest to students and scholars of the history and anthropology of imperialism, colonialism's culture and East Asian history, as well as contemporary Asian affairs.

New Forms of Consumption 2000 Mark Gottdiener New forms of consumption such as those facilitated by cyberspace, themed environments, the commodification of sex, and the increasing role of leisure in society all play new and interesting roles in daily life that combine consumerism with the most contemporary social forms. This book examines the recent ways in which consumerism has been studied with special emphasis given to these and other newly emerging topics. Part One provides a theoretical overview of consumption studies dealing with classical and more contemporary approaches in light of the debate between advocates and critics of postmodernism. Part Two emphasizes empirical studies of the commodification process. Part Three explores new forms of consumption on a more detailed and concentrated level. Mark Gottdiener currently teaches at the University of Buffalo.

The New Book of Middle Eastern Food 2008-12-24 Claudia Roden The definitive volume on Middle Eastern cooking, a modern classic from the award-winning, bestselling author of The Book of Jewish Food and Claudia Roden's Mediterranean Originally published in 1972 and hailed by James Beard as "a landmark in the field of cookery," this new version represents the accumulation of the author's years of extensive travel throughout the ever-changing landscape of the Middle East, gathering recipes and stories. Now featuring more than 800 recipes, including the aromatic variations that accent a dish and define the country of origin: fried garlic and cumin and coriander from Egypt, cinnamon and allspice from Turkey, sumac and tamarind from Syria and Lebanon, pomegranate syrup from Iran, preserved lemon and harissa from North Africa. Claudia Roden has worked out simpler approaches to traditional dishes, using healthier ingredients and time-saving methods without ever sacrificing any of the extraordinary flavor, freshness, and texture that distinguish the cooking of this part of the world. Throughout these pages she draws on all four of the region's major cooking styles: • The refined haute cuisine of Iran, based on rice exquisitely prepared and embellished with a range of meats, vegetables, fruits, and nuts • Arab cooking from Syria, Lebanon, and Jordan—at its finest today, and a good source for vegetable and bulgur wheat dishes • The legendary Turkish cuisine, with its kebabs, wheat and rice dishes, yogurt salads, savory pies, and syrupy pastries • North African cooking, particularly the splendid fare of Morocco, with its heady mix of hot and sweet, orchestrated to perfection in its couscous dishes and tagines From the tantalizing mezze—succulent bites of filled fillo crescents and cigars, chopped salads, and stuffed morsels, as well as tahina, chickpeas, and
eggplant in their many guises—to the skewered meats and savory stews and hearty grain and vegetable dishes, here is a rich array of Middle Eastern cooking.

The Book of New Israeli Food 2008-08-26 Janna Gur In this stunning new work that is at once a coffee-table book to browse and a complete cookbook, Janna Gur brings us the sumptuous color, variety, and history of today’s Israeli cuisine, beautifully illustrated by Eilon Paz, a photographer who is intimate with the local scene. In Gur’s captivating introduction, she describes Israeli food as a product of diverse cultures: the Jews of the Diaspora, settling in a homeland that was new to them, brought their far-flung cuisines to the table even as they looked to their Arab neighbors for additional ingredients and ideas. The delicious, easy-to-follow recipes represent all of these influences, and include some creative interpretations of classics by celebrated Israeli chefs: Beetroot and Pomegranate Salad, Fish Falafel in Spicy Harissa Mayonnaise, Homemade Shawarma, Chreime–North African Hot Fish Stew, Roasted Chicken Drumsticks in Carob Syrup. With favorite recipes for the Sabbath (Sweet Challah Traditional Chopped Liver, Chocolate and Halva Coffee cake) and for holidays (Balkan Potato and Leek Pancakes, Flourless Chocolate and Pistachio Cake), this book offers a unique culinary experience for every occasion. All of this is enriched by Paz’s gorgeous and vibrantly colored photographs and by short narratives about significant aspects of Israel’s diverse cuisine, such as the generous and unique Israeli breakfast (which grew out of the needs of Kibbutz life), locally produced cheeses that now rival those of Europe, and a dramatic renaissance of wine culture in this ancient land. “In less than thirty years,” Janna Gur writes, “Israeli society has graduated... to a true gastronomic haven.” Here she gives us a book that does full, delectable justice to the significance of Israeli food today—Mediterranean at its heart, richly spiced, and imbued with cross-cultural flavors.

The New Book of Snobs 2016-10-20 D.J. Taylor 'Hugely enjoyable' AN Wilson, Sunday Times 'Thoughtful, entertaining and enjoyable' Michael Gove, Book of the Week, The Times. Inspired by William Makepeace Thackeray, the first great analyst of snobbery, and his trail-blazing The Book of Snobs (1848), D. J. Taylor brings us a field guide to the modern snob. Short of calling someone a racist or a paedophile, one of the worst charges you can lay at anybody's door in the early twenty-first century is to suggest that they happen to be a snob. But what constitutes snobbishness? Who are the snobs and where are they to be found? Are you a snob? Am I? What are the distinguishing marks? Snobbery is, in fact, one of the keys to contemporary British life, as vital to the backstreet family on benefits as the proprietor of the grandest stately home, and an essential element of their view of who of they are and what the world might be thought to owe them. The New Book of Snobs will take a marked interest in language, the vocabulary of snobbery - as exemplified in the 'U' and 'Non U' controversy of the 1950s - being a particular field in which the phenomenon consistently makes its presence felt, and alternate social analysis with sketches of groups and individuals on the Thackerayan principle. Prepare to meet the Political Snob, the City Snob, the Technology Snob, the Property Snob, the Rural Snob, the Literary Snob, the Working-class Snob, the Sporting Snob, the Popular Cultural Snob and the Food Snob.

New World, Inc. 2018-03-20 John Butman Three generations of English merchant adventurers—not the Pilgrims, as we have so long believed—were the earliest founders of America. Profit—not piety—was their primary motive. Some seventy years before the Mayflower sailed, a small group of English merchants formed "The Mysterie, Company, and Fellowship of Merchant Adventurers for the Discovery of Regions, Dominions, Islands, and Places Unknown," the world’s first joint-stock company. Back then, in the mid-sixteenth century, England was a small and relatively insignificant kingdom on the periphery of Europe, and it had begun to face a daunting array of social, commercial, and political problems. Struggling with a single export—woolen cloth—the merchants were forced to seek new markets and trading partners, especially as political discord followed the straitened circumstances in which so many English people found themselves. At first they headed east, and dreamed of Cathay-China, with its silks and exotic luxuries. Eventually, they turned west, and so began a new chapter in world history. The work of reaching the New World required the very latest in navigational science as well as an extraordinary appetite for risk. As this absorbing account shows, innovation and risk-taking were at the heart of the settlement of America, as was the profit motive. Trade and business drove English interest in America, and determined what happened once their ships reached the New World. The result of extensive archival work and a bold interpretation of the historical record, New World, Inc. draws a portrait of life in London, on the Atlantic, and across the New World that offers a fresh analysis of the founding of American history. In the tradition of the best works of history that make us reconsider the past and better understand the present, Butman and Targett examine the enterprising spirit that inspired European settlement of America and established a national culture of entrepreneurship and innovation that continues to this day.

The Boy Who Made Everyone Laugh 2021-08-03 Helen Rutter When life is funny, make some jokes about it. Billy Plimpton has a big dream: to become a famous comedian when he grows up. He already knows a lot of jokes, but thinks he has one big problem standing in his way: his stutter. At first, Billy thinks the best way to deal with this is to . . . never say a word. That way, the kids in his new school won’t hear him stammer. But soon he finds out this is NOT the best way to deal with things. (For one thing, it’s very hard to tell a joke without getting a word out.) As Billy makes his way toward the spotlight, a lot of funny things (and some less funny things) happen to him. In the end, the whole school will know -- If you think you can hold Billy Plimpton back, be warned: The joke will soon be on you!

The invasion of Lebanon was the culmination of an extraordinary change which New Zionism created in Israel’s foreign policy system. This book, first published in 1986, examines how New Zionism came to dominate Israeli politics and it investigates the implications of this new ideology for the future of the Middle East. The author agrees that after the creation of the State of Israel, the belief system of the evolving society gradually changed. After the Six-Day War the ideology of Socialist Zionism became increasingly discredited and replaced by the New Zionist quest for Eretz Israel. Hardened by the harsh experience of the continuing Arab-Israeli conflict and enhanced by the threatening image of the enemy, the political culture in Israel became less tolerant and more receptive to the language of New Zionism. As a result, Begin’s Likud came to power in 1977 and quickly changed the whole basis of Israel’s foreign policy. Instead of the cautious pragmatism of Socialist Zionism the Begin government pursued the ‘grand design’ that had enjoyed a long tradition in Revisionist thinking. Although General Sharon was responsible for the actual conduct of the war, it was the New Zionist propensity to use military force to introduce a new order in the Middle East which was responsible for the invasion. The book suggests that it is still too early to assess the full impact of the war in Lebanon on New Zionism. Although the war failed to validate any of the ‘grand design’ tenets of New Zionism, the violent Shiite response in Southern Lebanon may serve to strengthen the New Zionist hard line. This could hasten the annexation of the occupied territories as the final stage of turning the State of Israel into the Land of Israel.

**Discovery /new/ The Life and Legacy of Nelson Mandela**

Nelson Mandela stands as one of the most esteemed leaders of the 20th century. His life journey began on July 18, 1918, in the tranquil village of Mvezo, South Africa. Born into the Thembu royal family, he was bestowed with the name Rolihlahla, meaning “troublemaker” in Xhosa. Mandelas upbringing unfolded amidst a backdrop of racial injustice, where he witnessed firsthand the harsh realities inflicted upon the Black majority by the ruling white minority government. Driven by a deep sense of fairness, he dedicated his life to the struggle for emancipation and justice, joining the African National Congress (ANC), a political organization dedicated to dismantling apartheid, the system of racial discrimination that plagued South Africa. Emerging as a inspiring lawyer, activist, and leader, Mandela faced numerous arrests and imprisonments for his unwavering resistance and defiance. For 27 years, he endured the harsh conditions and isolation of Robben Island, a notorious prison island, where his optimism never wavered. His unwavering commitment to liberation continued to inspire and mobilize his people and the world at large. In 1990, he walked out of prison, free at last, and in 1994, he made history as South Africa's first democratically elected Black president. Mandelas leadership ushered in a period of unity, transforming South Africa into a nation of equal opportunity. His global impact extended far beyond South Africa's borders, as he became a beacon of democracy, recognized for his unwavering dedication to these ideals. In 1993, he was awarded the Nobel Peace Prize, alongside numerous other accolades and honors. On December 5, 2013, at the age of 95, Mandela passed away, leaving behind a legacy of courage, understanding, and empathy. Revered as the father of the nation and one of history's greatest heroes, Mandelas legacy continues to inspire generations to come.
