The Art and Culture of Early Greece, 1100-480 B.C. Jeffrey M. Hurwit 1985 This handsomely illustrated book offers a broad synthesis of Archaic Greek culture. Unlike other books dealing with the art and architecture of the Archaic period, it places these subjects in their historical, social, literary, and intellectual contexts. Origins and originality constitute a central theme, for during this period representational and narrative art, monumental sculpture and architecture, epic, lyric, and dramatic poetry, the city-state (polis), tyranny and early democracy, and natural philosophy were all born.

Poseidon's Warriors John Lamshead 2016-06-16 Poseidon's Warriors is a set of wargaming rules for large-scale naval actions between fleets of

Classical galleys from the Greek and Persian clash at the battle of Salamis to the battle of Actium that decided the fate of Rome. With so many of these battles taking place around islands or in narrow channels and shallow waters, sneaky tactics and cunning manoeuvres are a hallmark of warfare of this era, and the rules use an integrated turn system to allow a commander to position ships to go in and ram without being rammed in return, or to employ feints and traps to tempt the enemy out of position and leave his ships vulnerable to a follow-up strike. With data for ships throughout the period, rules for famous admirals, historical scenarios, a campaign system and a brief historical summary for those who wish to refresh their memory of the era, Poseidon's

Warriors offers everything players need to bring to the tabletop the battles and campaigns of the first great age of naval warfare.

The Greek Victories and the Persian Ebb 480-479 BC Manousos E Kambouris 2022-09-30 The dramatic conclusion to this trilogy explains the reversal of fortunes and final defeat of Xerxes' Persian invasion of Greece; not as unlikely as usually presupposed. The focus is on the successful repulse of the Persian massive armada at Salamis, a resounding naval victory with parallels to the English defeat of the Spanish Armada. Along with the backstage policies and cloak-and-dagger events, the analysis of hard data of naval and military realities and environment shows the reason for this outcome and more so of the

closely fought double campaign of the following year that ended the Persian threat. The massive land victory at Plataea that ousted the empire from mainland Greece and crippled its armies, and the amphibious operation at Mycale that destroyed the remnants of the royal Grand Armada and shut the doors to further Persian incursions in Greece is examined in detail. Manousos Kambouris examines in depth the plans, potential, assets and liabilities of the two protagonists to explain command decisions and developments in the field. This is a fine finale to this fresh appraisal of these hugely significant events.

Thermopylae 480 BC Nic Fields
2007-11-20 Osprey's study of the most epic battles of the Greco-Persian Wars (502-449 BC). Thermopylae resonates throughout history as a battle involving extreme courage and sacrifice. It was in this rocky pass in northern Greece that Leonidas, king of the Spartans and commander-in-chief of the Greek force, delayed the Persian hordes for three days

against overwhelming odds. Finally overcome by treachery, the remaining Spartans refused to retreat in the face of inevitable defeat, being slaughtered by the elite Persian 'Immortals' down to the last man. Nic Fields vividly describes the battle for the narrow gateway to southern Greece as the combined Greek forces held off the army of Xerxes and Leonidas's sacrifice bought time for the retreat and tactical and political regrouping that would save Greece. Full color artwork, detailed maps and dramatic battle scenes complement clear and authoritative text to provide an in-depth analysis of one of the most famous acts of sheer courage and defiance in the face of overwhelming odds in history. Diodorus Siculus, Books 11-12.37.1

2010-01-01 2007 – A Choice Magazine Outstanding Academic Book Sicilian historian Diodorus Siculus (ca. 100-30 BCE) is our only surviving source for a continuous narrative of Greek history from Xerxes' invasion to the Wars of the Successors following the death of Alexander the Great. Yet this important historian has been consistently denigrated as a mere copyist who slavishly reproduced the works of earlier historians

without understanding what he was writing. By contrast, in this iconoclastic work Peter Green builds a convincing case for Diodorus' merits as a historian. Through a fresh English translation of a key portion of his multi-volume history (the so-called Bibliothekē, or "Library") and a commentary and notes that refute earlier assessments of Diodorus, Green offers a fairer, better balanced estimate of this much-maligned historian. The portion of Diodorus' history translated here covers the period 480-431 BCE, from the Persian invasion of Greece to the outbreak of the Peloponnesian War. This half-century, known as the Pentekontaetia, was the Golden Age of Periclean Athens, a time of unprecedented achievement in drama, architecture, philosophy,

historiography, and the visual arts. Green's accompanying notes and commentary revisit longstanding debates about historical inconsistencies in Diodorus' work and offer thought-provoking new interpretations and conclusions. In his masterful introductory essay, Green demolishes the traditional view of Diodorus and argues for a thorough critical reappraisal of this synthesizing historian, who attempted nothing less than a "universal history" that begins with the gods of mythology and continues down to the eve of Julius Caesar's Gallic campaigns.

HC 480 - Holocaust Education Great Britain. Parliament. House of Commons. Education Committee
2016-01-25 The Holocaust stands apart from other historical events in being required through the National Curriculum to be taught as part of the secondary school history curriculum. Beyond the curriculum, the Government supports Holocaust education through a range of grants and projects. The Prime Minister's Holocaust Commission reported one year ago in January 2015, and plans are being made to preserve survivor testimony, to create a new national memorial and secure the long-term future of Holocaust education. This will include the establishment of a world-class learning centre for future generations of students. We

have discovered a wealth of good practice and enthusiasm in Holocaust education. Teachers are taking students beyond facts to a deeper understanding of what it means to be an active and informed citizen. In doing so they are ably supported by several educational and charitable organisations. However, too few teachers - particularly history teachers - are being trained to teach the Holocaust. While much of the training available for teachers is of a high standard, more needs to be done to extend its reach to subjects other than history. The Holocaust should remain part of the core history curriculum, and we believe that the teaching of the Holocaust would be strengthened by the adoption of a deliberately cross-curricular approach.
