new Deal art in North Carolina Anita Price Davis 2008-10-29 As the people and economy of the United States struggled to recover during the Great Depression, 42 towns in North Carolina would benefit directly from the \$83 million the federal government allocated for public art as part of the New Deal. The result was some of the state's most memorable murals, sculptures, reliefs, paintings, oils, and frescoes, most of which were installed in post offices and courthouses. This book is the only record of all of the North Carolina public art works under the program. It provides in-depth accounts of the works themselves and the artists who created them. Photographs of all of the buildings that originally received the art, the works themselves, and almost all of the 41 artists are provided. An appendix describes federal art projects, 1933-1943. There are detailed footnotes, an extensive bibliography, and an index.

City of promises : a history of the jews of New York Deborah Dash Moore 2012-09-10 New York Jews, so visible and integral to the culture, economy and politics of America's greatest city, has eluded the grasp of historians for decades.

Surprisingly, no comprehensive history of New York Jews has ever been written. City of Promises: The History of the Jews in New York, a three volume set of original research, pioneers a path-breaking interpretation of a Jewish urban community at once the largest in Jewish history and most important in the modern world.

Multiculturalism on Campus Michael J. Cuyjet 2023-07-03 The first edition of this book constituted a comprehensive resource for students of higher education, faculty, higher education administrators and student affairs leaders engaging with multiculturalism and diverse populations on college campuses. It was one of the first texts to gather in a single volume the related theories, assessment methods, and environmental and application issues pertinent to the study and practice of multiculturalism, while also offering approaches to enhancing multicultural programming and culturally diverse campus environments. This second edition retains the structure and vision of the first, introducing readers to the key theories and models for understanding the complexity of the students they serve, and for reflecting on their own values and motivations. It provides an array of case studies, discussion questions, examples of best practice, and recommendations about resources for use in the classroom. This edition includes a new chapter on intersectionality, updates several chapters, presents a number of new cultural frameworks and updated best practices for creating an inclusive environment for marginalized groups, and expands the third section of the book on cultural competency practice.

Facilitating Higher Education Growth through Fundraising and Philanthropy Alphin Jr., Henry C. 2015-12-02 Many institutions facing dwindling state and government funding often rely on the patronage of others in order to establish monetary security. Featuring global perspectives on the economics of philanthropy in educational settings and subsequent growth and development within these environments, this book is an exhaustive reference source for professors, researchers, educational administrators, and politicians interested in the effects of altruism on colleges and universities.

Purdue at 150 David M. Hovde 2019-05-06 Purdue at 150: A Visual History of Student Life by David M. Hovde, Adriana Harmeyer, Neal Harmeyer, and Sammie L. Morris tells Purdue's story through rare images, artifacts, and words. Authors culled decades of student papers, from scrapbooks, yearbooks, letters, and newspapers to historical photographs and memorabilia preserved in the Purdue University Libraries Virginia Kelly Karnes Archives and Special Collections. Many of the images and artifacts included have never been published, presenting a unique history of the land-grant university from the student perspective. Purdue at 150 is organized by decade, presenting a scrapbook-like experience of viewing over 400 rare photographs, documents, and artifacts alongside critical contextual information. Each chapter provides a decadal historical sketch of Purdue University, offering insight into the institution's unique culture while incorporating campus responses to major national events such as world wars and the Great Depression. Spotlight sections highlight Purdue firsts, including the first graduates of programs, the growth and development of the international student population at Purdue, the creation of significant student organizations, and the foundations of both old and new campus traditions. This curated journey through the personal experiences, spaces, and events of Purdue's history not only celebrates major accomplishments and acknowledges the contributions Purdue has made to society, but it also explores some of the challenges and tragedies that shaped Indiana's land-grant university. As a result, Purdue at 150 connects the identity and character of the University of 1869 to the University of 2019 and beyond, as told through the stories of its students. Running throughout this journey is the enduring vision of the land-grant institution and its impact on society, as seen through the material culture of Boilermakers from around the world.

SynergCity Paul Hardin Kapp 2012-09-30 SynergCity: Reinventing the Postindustrial City proposes a new and invigorating vision of urbanism, architectural design, and urban revitalization in twenty-first-century America. Culling transformative ideas from the realms of historic preservation, sustainability, ecological urbanism, and the innovation economy, Paul Hardin Kapp and Paul J. Armstrong present a holistic vision for restoring industrial cities suffering from population decline back into stimulating and productive places to live and work. With a particular emphasis on the Rust Belt of the American Midwest, SynergCity argues that cities such as Detroit, St. Louis, and Peoria must redefine themselves to be globally competitive. This revitalization is possible through environmentally and economically sustainable restoration of industrial areas and warehouse districts for commercial, research, light industrial, and residential uses. The volume's expert researchers, urban planners, and architects draw on the redevelopment successes of other major cities--such as the American Tobacco District in Durham, North Carolina, and the Milwaukee River Greenway--to set guidelines and goals for reinventing and revitalizing the postindustrial landscape. Contributors are Paul J. Armstrong, Donald K. Carter, Lynne M. Dearborn, Norman W. Garrick, Mark L. Gillem, Robert Greenstreet, Craig Harlan Hullinger, Paul Hardin Kapp, Ray Lees, Emil Malizia, John O. Norquist, Christine Scott Thomson, and James H. Wasley.

Jews in Gotham Jeffrey S. Gurock 2013-09-01 Jews in Gotham follows the Jewish saga in ever-changing New York City from the end of the First World War into the first decade of the new millennium. This lively portrait details the complex dynamics that caused Jews to persist, abandon, or be left behind in their neighborhoods during critical moments of the past century. I shows convincingly that New York retained its preeminence as the capital of American Jews because of deep roots in local worlds.

Global Perspectives on Spirituality and Education Jacqueline Watson 2013-12-04 In recent decades, and around the world, much attention has been given to the role of spirituality in the education of children and young people. While educationalists share many common goals and values in nurturing the spiritual lives of children and young people, national and regional cultures, religions and politics have impacted on the approaches scholars and practitioners have adopted in their investigations and practices. The different contexts across nations and regions mean that educators face quite distinct conditions in which to frame their approaches to spiritual education and research, and the nature and impact of these differences is not yet understood. This book brings together thinkers from around the globe and sets them the task of explaining how their research on children's spirituality and education has been shaped by the historical, cultural, religious and political contexts of the geographic region in which they work. The book presents contributions in three sections – Europe and Israel, Australasia, and The Americas– and concludes with a chapter highlighting what is common and what is contextually unique about global approaches to spirituality and education.

Yea, Alabama! A Rare Glimpse into the Personal Diary of the University of Alabama (Volume 2 - 1871 through 1901) David M. Battles 2016-12-14 The University of Alabama (UA) is one of the most prominent and fascinating universities in the United States. Volume One of this series explored UA's 1819 birth, its formative years, its burning by Union soldiers, and its subsequent rebirth in 1871. Volume Two introduces a number of important elements into the ongoing narrative, including: the university's continual hassle with the radical state government through 1877; a span of only seven years wherein three UA presidents either die in office or in Tuscaloosa shortly after resigning, creating a terrible period of psychological mourning that affected everyone associated with the University; the strict admission of women students, and the effect of this on the faculty, administration, and the cadets; and the establishment of student-written works including a journal, a newspaper, and a yearbook. The volume also looks at the history of unofficial student sports dating from the 1870s and the official birth in 1892 of a school-sanctioned athletic program for football and baseball, the germ of what would eventually be named the Crimson Tide, including the first twelve rocky years of the program. It also explores the successful 1900 Student Rebellion against the military style of student government, a rebellion that would rock the very soul of the school, involving the state press, the legislature, the governor, the alumni, and the citizens of Alabama, and which witnessed the fall of the commandant and eventually of the president, thus wrenching the students out of their fluctuating but often sorrowful psychological state of mind into an ever-evolving psychology and experience of success.

Philanthropy and Fundraising in American Higher Education, Volume 37, Number 2 Noah D. Drezner 2011-05-17 From gifts of blankets, chickens, and candles to multimillion-dollar gifts and billion-dollar campaigns, voluntary support of American higher education has been part of the American ethos since the founding of the colonial colleges. Peter Dobkin Hall in 1992 noted that "no single force is more responsible for the emergence of the modern university in America

than giving by individuals and foundations.* Institutions are turning to private giving to meet budgetary demands. This book provides a review of the philanthropy and fundraising literature and addresses the impact of philanthropy on American higher education, the theoretical under-pinnings and motivations for voluntary support, and a comprehensive look at the mechanics of fundraising.
