Hero Living Rudy Reyes 2009-10-06 The star of HBO's Generation Kill and the real-life warrior from the New York Times bestseller presents his empowering philosophy. In his publishing debut, Rudy Reyes introduces his warrior philosophy of "Hero Living": part Homer, part Joseph Campbell, part Bruce Lee, and part Spider-Man. He outlines the various stages in the journey to bring forth the hero within: recognizing the hero's call, following the hero's path, and returning from the battlefield with the hero's hard-earned wisdom. Taking readers step-by-step through his program, Reyes draws from his own heroic story of how he triumphed over his harrowing childhood experiences of poverty and abandonment. Rather than giving up hope, he heeded the hero's call to live up to his full potential-first as a martial-arts champion, then as an elite warrior in the mountains of Afghanistan and sands of Iraq, and finally in his post-Marines life as a personal trainer, actor, and motivational speaker.

Homelessness, Health, and Human Needs Institute of Medicine 1988-02-01 There have always been homeless people in the United States, but their plight has only recently stirred widespread public reaction and concern. Part of this new recognition stems from the problem's prevalence: the number of homeless individuals, while hard to pin down exactly, is rising. In light of this, Congress asked the Institute of Medicine to find out whether existing health care programs were ignoring the homeless or delivering care to them inefficiently. This book is the report prepared by a committee of experts who examined these problems through visits to city slums and impoverished rural areas, and through an analysis of papers written by leading scholars in the field.

Young Men in Uncertain Times Vered Amit 2011-11-30 Anthropology is particularly well suited to explore the contemporary predicament in the coming of age of young men. Its grounded and comparative empiricism provides the opportunity to move beyond statistics, moral panics, or gender stereotypes in order to explore specific aspects of life course transitions, as well as the similar or divergent barriers or opportunities that young men in different parts of the world face. Yet, effective contextualization and comparison cannot be achieved by looking at male youths in isolation. This volume undertakes to contextualize male youths' circumstances and to learn about their lives, perspectives, and actions, and in turn illuminates the larger structures and processes that mediate the experiences entailed in becoming young men. The situation of male youths provides an important vantage point from which to consider broader social transformations and continuities. By paying careful attention to these contexts, we achieve a better understanding of the current influences encountered and acted upon by young people.

[Introduction to Social Housing](#) Paul Reeves 2006-08-11 The provision and management of social housing for those who are unable to access the housing market is essential to the maintenance of the fabric of society. The social housing industry is vast and still growing. There are very few countries in the world where some form of subsidised housing does not exist, and the total number of social homes is likely to grow worldwide, as are the challenges of the sector. Paul Reeves takes a people-centred approach to the subject, describing the themes that have run through provision of social housing from the first philanthropic industrialists in the 19th Century though to the increasingly complex mixture of ownerships and tenures in the present day. The management of housing forms a key part of the book, with an emphasis on the practical aspects of tenant participation and multi-agency working. The book is ideal for students of housing and social policy, and for housing professionals aiming to obtain qualifications and wanting a broad understanding of the social housing sector.

Ideal Homes? Tony Chapman 2002-09-11 *Ideal Homes?* shows how both popular images and experiences of home life relate to the ability of society's members to produce and respond to social change. It covers a range of subjects, including gender roles, different generations relationships to home, the changing nature of the family, transition and risk and alternative visions of home.

Lively Tales from Papua New Guinea Bev Floyd 2017 My main purpose in writing this account is to preserve a record of the experiences many Australian 'expats' like myself were privileged to have during their time in Papua New Guinea. These experiences formed us and shaped our future lives. Another reason for writing *Lively Tales* is to create a brief history of the country known as Papua New Guinea. With the availability of the internet this may seem redundant. However, I have woven into this small account some of the historical issues that were of interest to me while I lived in PNG and perhaps in their concise form they may prove useful to anyone wanting all the information in one place. I have used Wikipedia extensively to create a background for my own story. Where possible I have double-checked the information to make sure it is reliable. I have also corresponded with Wikimedia to request their policy on quoting from the various articles. Part of their reply is as follows: 'In principle, all text in Wikipedia is subject to the Creative Commons Attribution-ShareAlike License (CC-BY-SA) and may be used free of charge for any purpose.' My own story which seemed fairly ordinary at the time now appears, even to me, to illustrate an era of Australia's history that was quite exemplary. True, we were colonists. We were not perfect either as individuals or as administrators, but on the whole we succeeded in bringing an end to our responsibilities in PNG in good time and with good will. It was an historic era and Australia played its part fairly well. We 'expats' gave our best for the country we grew to love. We left a part of our hearts there. So, I would like to dedicate this small book to the memory of the people I met in PNG and the country I learned to love.

EBOOK: Core Themes in Social Work: Power, Poverty, Politics and Values Martin Sheedy 2013-01-16 "This book sheds a very bright light on poverty as a central experience of the people social workers work with. Research and theories of power, politics and values are thoroughly discussed and provide the basis for a sustained commitment to social justice. The book is a supportive read as it skilfully appreciates the personal challenges that critical and assertive practice entails. It is a book for students, professionals and service leads to keep, re-read and savour." Dr Tillie Curran, Senior Lecturer in Social Work, University of the West of England, UK "By identifying power, poverty, politics and values as core themes in social work, this text offers us a refreshing perspective which will challenge students and practitioners alike to re-evaluate their practice in the light of its wider social, political and philosophical contexts. Through an exploration of issues of power and an interrogation of the real meaning of social work ethics and values, Sheedy motivates and encourages us to reflect on our practice and to ensure that it is truly person-centred." Dr Sue Taplin, University of Nottingham, UK "This book offers a concise and coherent discussion of what should be core themes in thoughtful and careful social work practice. It offers a journey towards rethinking and embracing effective critical practice, which engages with human rights and social justice as much as with empowerment and with individual and interpersonal change. Occasional student accounts, coupled with use of key points and questions for discussion make for accessibility. The book synthesises, summarises and critiques ideas about how to understand and resolve social issues, enabling readers to question how they might work creatively alongside service users. It is a book which invites reflection on policy and practice." Professor Michael Preston-Shoot, Dean, Faculty of Health and Social Sciences, University of Bedfordshire, UK "This excellent text is essential reading for all social workers and students, and a key resource for academics. It highlights – with concern and conviction – the importance of developing an effective critical practice that ‘challenges, enhances and broadens the task of conventional social work’ in ways that have ‘the potential to improve outcomes for service users’. It calls for a social work practice based on an understanding of the issues of power, politics and ideology - and the values and ‘world view’ held by the worker - linked with concerns raised by the people that social workers regularly encounter and work with. The issues of ‘poverty and disadvantage’ and their structural causes run throughout this text – issues that have been too long neglected in social work. In this text, Martin Sheedy corrects that neglect by outlining in some detail the impact of poverty on people’s lives and life chances whilst at the same time describing how critical practice can be used by social workers to promote social justice and empowerment practices." Dr Pamela Trevithick, Visiting Professor in Social Work, Buckinghamshire New University, UK This engaging book introduces the core themes in social work, and encourages students and practitioners to connect with the important debates surrounding these themes and challenges them to revisit the direction social work is and should be going in. The key contexts of social work are explored using knowledge from the disciplines of social theory, politics, sociology, psychology and ethics. The content is enlivened by: The voices of students, service users and practitioners Current and topical content on social work, poverty, politics, power and values A discussion style format to help readers engage with the topics An extensive range of sources of knowledge and theory Key summary points at the end of each chapter Group discussion questions at the end of each chapter This book will contribute to social work students’ and practitioners’ thinking about the world in which they live and operate as professionals.
