Urban Space and Aristocratic Power in Late Antique Rome Carlos Machado 2019-10-17 Between 270 and 535 AD the city of Rome experienced dramatic changes. The once glorious imperial capital was transformed into the much humbler centre of western Christendom in a process that redefined its political importance, size, and identity. Urban Space and Aristocratic Power in Late Antique Rome examines these transformations by focusing on the city's powerful elite, the senatorial aristocracy, and exploring their involvement in a process of urban change that would mark the end of the ancient world and the birth of the Middle Ages in the eyes of contemporaries and modern scholars. It argues that the late antique history of Rome cannot be described as merely a product of decline; instead, it was a product of the dynamic social and cultural forces that made the city relevant at a time of unprecedented historical changes. Combining the city's unique literary, epigraphic, and archaeological record, the volume offers a detailed examination of aspects of city life as diverse as its administration, public building, rituals, housing, and religious life to show how the late Roman aristocracy gave a new shape and meaning to urban space, identifying itself with the largest city in the Mediterranean world to an extent unparalleled since the end of the Republican period.

significant area within this field. Covering social work theories, methods, policies, organizations, and statutes, as well as key terms from interdisciplinary topics overlapping with health and education, this is the most up-to-date dictionary of its kind available. It also provides extended entries on specialisms such as children and families, domestic violence, and residential care, and has been extensively updated to include new legislation. Useful appendices include a glossary of acronyms and a Table of Legislation, Regulations, and Codes of Practice, cross-referenced to Dictionary entries. Entry-level bibliographies and web links provide further resources and the web links are listed and regularly updated on a dedicated companion website. Written by two leading figures in the field, and a team of eleven contributors, A Dictionary of Social Work and Social Care is a must-have for students of social work, social care, and related subjects, as well as for qualified social workers undertaking continuing professional development programmes.

The Race to 270 Daron R. Shaw 2008-09-15 The Electoral College has played an important role in presidential politics since our nation's founding, but surprisingly little information exists about precisely how it affects campaign strategy. Daron R. Shaw, a scholar who also worked as a strategist in both Bush-Cheney campaigns, has written the first

book to go inside the past two presidential elections and reveal how the race to 270 was won—and lost. Shaw's nonpartisan study lays out how both the Democrats and the Republicans developed strategies to win decisive electoral votes by targeting specific states and media markets. Drawing on his own experience with Republican battle plans, candidate schedules, and advertising purchases—plus key contacts in the Gore and Kerry camps—Shaw goes on to show that both sides used information on weekly shifts in candidate support to reallocate media buys and schedule appearances. Most importantly, he uses strikingly original research to prove that these carefully constructed plans significantly affected voters' preferences and opinions—not in huge numbers, but enough to shift critical votes in key battlegrounds. Bridging the gap between those who study campaigns and those who conduct them, The Race to 270 will provide political scientists and practitioners alike with fresh insights about the new strategies that stem from one of our oldest institutions.
